Community Garden Guide

Fictional sample for the Knora document Q&A walkthrough

Watering seedlings

Water seedlings every morning before 9 AM.

Use a watering can at the base of each plant to keep the leaves dry.

On rainy days, check the soil first and skip watering if it is already moist.

Shared tools

Clean hand tools after use and return them to the green storage shed.

Report damaged tools to the volunteer coordinator.

Composting

Put vegetable scraps and dry leaves in the compost bin.

Do not add meat, dairy products, or plastic packaging.

Public-domain demo text (CC0). Fictional instructions, not an operating policy.

Prepared for README screenshots; not a quality evaluation dataset.
